REPUBLICAN CAMPAIGNERS MAKE VOTES AT NOTABLE RALLY HERE

The Biggest Demonstration Since Tener Gubernatorial Campaign Held

ADAMSON BILL IS EXPOSED

Not bothered but helped by a heckler, Congressman Henry W. Temple "knocked the gilt off some Democratic gold bricks," and Edward F. Merrill, Esq., a Maine orator, helped along by exposing tariff iniquities at a big Republican rally held under the auspices of the Republican county committee at the Coyle theatre Thursday evening. The rally came as the climax to a week's endeavors by a campaign party and attracted to the Coyle one of the largest crowds that has attended a demonstration in Charleroi since the Tener gubernatorial campaign.

The party of campaigners reached Charleroi late in the afternoon and an informal reception was held, when the candidates and others with them shook hands with a large number of voters. A band concert by the Charleroi Concert band, which traversed some of the principal streets, and ended at the Coyle theatre was a feature.

Attorney McCloskey Chairman

D. M. McCloskey, Esq., was chairman of the meeting. Prefacing his introduction of the first speaker, he referred briefly to the reasons for holding rallies and spoke of the things for which the Republican party stands.

Edward F. Merrill was the first speaker. He started by eulogizing Civil war veterans who were present and branched quickly into his discussion of prosperity issues and the misleading Democratic tariff. He related the history of the Democratic tariff tinkering, showing how the Democratic belief after the war came to be that of a belief in a tariff for revenue only, or for free trade.

Merrill Exposes Tariff

Mr. Merrill was interrupted on two or three occasions by a down river Democrat in the audience, who asked questions. One of them was to ascertain the real cause of the high cost of living. Mr. Merrill's speech as a whole was an elucidation. He told how the Underwood tariff bill with its free trade provisions on products produced by the north, had worked a hardship on the people. He declared that present prosperity was not due to the Democratic administration, but in spite of it and proved it. He produced a list of 17 articles, and quoted figures showing how the European war abroad has strengthened the exports and necessarily the home production. Peace products he found were not helped of manufacture by the war, and this he argued showed the fallacy of the Democratic tinkering. Mr. Merrill told of how products of the south were protected, while similar products of the north were not, comparing wool of Texas protected with that of Washington county, unprotected.

Congressman Temple Pleases

Introducing Congressman Temple Chairman McCloskey made a point in referring to the unequal balancing of conditions. He praised Theodore Roosevelt for his past work and present activity.

Congressman Temple opened his remarks by continuing the discussion of the tariff issue by saying, "We do not want to prosper by the sufferings and death of our brothers across the water." He launched into a brief dissertation of the tariff tinkering, showing where the war abroad saved this country from financial trouble.

Congressman Temple showed up the Adamson eight-hour law in great shape proving to the satisfaction of his hearers that while the law was intended to be a law for compensation, it really was not anything.

The bill regulates the time of a day's work for purposes of fixing compensation as eight hours. By the present custom 100 miles of a run for railroad trainmen is regarded as a day's work, but with the new law in effect a man will have to work all of the eight hours to draw a day's pay.

Congressman Temple told how the Democrats in charge of the measure on the floor of congress gave but five and one-half hours for its consideration and how that the President signed it on Sunday because the railroad trainmen would not trust him and how he had to sign it again on Tuesday. He referred to the last as "doing the thing first and inquiring about it afterward."

The bill goes into effect January 1, Congressman Temple said and provides for an investigation by a commission from six to nine months. However no provision whatever is made for the operation of the bill after the investigation is completed. Congressman Temple quoted from Charles E. Hughes, who he said was asked if he would seek a repeal of the Adamson law if elected president. Mr. Hughes stated, "It is not necessary to repeal a surrender." Congressman Temple went farther. He said, "You don't need to repeal a bill that naturally peters out in 11 months

Discussing the President's arbitrary efforts to get the bill passed in a hurry that was unseemly, Congressman Temple said he would not have voted for the "ten commandments on an order like that." He said that the bill might just as well have gone into effect by October 1, instead of January 1, but that if it did the railroad men would discover it meant nothing to them and the political effect would be spoiled. Congressman Temple ended with the statement, "The Adamson bill doesn't give the trainmen what they want and nobody else anything."

During the course of his remarks he was heckled several times by the down-river Democrat who wanted to talk, but Congressman Temple answered him so quickly and pointedly that the house was delighted. Finally the man became rather annoying and he was expelled upon demand of the audience from the meeting. As he was passing out the door Congressman Temple thanked him very earnestly and sincerely for the points he had helped him make.

A number were here from the county seat and other points, the party including in addition to Congressman Temple and Mr. Merrill, John L. Stewart, O. E. Mikesell, A. V. Lewis, Boyd C. Parshall, I. W. Baum, Esq., Harry Pollock, T. C. Luellen, Frank Wickerham and the three candidates for the legislature, G. P. Baker, J. Add Sprowls and George C. McPeake.

MEN WITH FERRETS RUN AMUCK WITH LAW

Ferret agents, or persons with ferrets in their possession are being traced by Game Warden Josph Kennedy of Monongahela. Three already had fallen into the toils of the law and have been heavily fined. Two were from Dunlevy and one from Charleroi. Their names are withheld.

Game Warden Kennedy discovered that six ferrets were received at a Belle Vernon express office by a Dunlevy man and investigations followed. The result was that the man was hailed before a Belle Vernon justice of the peace and fined $150, bond being put up. Then it was learned that two others were concerned with the distribution of the ferrets and they were taken before Justice of the Peace H. W. Scott of North Charleroi, where they were fined $75 and $125 respectively.

The law does not permit people to have ferrets except by a special license, and prohibits their distribution. Several persons in country districts are said now to have one or more of them. Game Warden Kennedy has the names of some and intends to prosecute. A fine of $25 is tendered each person with a ferret.

NO MURDER MOTIVE IS LEARNED BY CORONER

Inquest Conducted at Canonsburg Into Death of Joseph Be, Whose Mangled Body Was Found in Cornfield—Girls Tell Story

Coroner James T. Heffran held an inquest at Canonsburg Thursday in the death of Joseph Be, the Italian who was found dead in a cornfield on Buffalo hill, a suberb of Canonsberg, on last Saturday evening. Be had not only been stabbed several times, but also shot. His throat had been cut from ear to ear. The coroner's jury had no evidence before it to show who committed the deed. The only finding they could make was that Be came to his death at the hands of unknown assailants.

Mary Biner, about 12 years of age, testified that she and another girl, Anna Gurre, on Saturday morning were on their way to get some milk, when near the spot where later the body of Be was found, they saw three men. They thought at the time that the man lying down was drunk. While there three other girls joined them. The two men who were standing made some remark to the girls, started towards them and they ran away. In running away the lid came off the bucket the Biner girl was carrying. She with the other girl ran to the Biner girl's home. They told what had happened.

They went on after their milk but not by the route they had first gone. They returned however by the first route and were again accosted by the two men. This was practically all the Biner girl knew. This was early Saturday morning last. That same evening James Ritson a young lad, who with some other boys had been out in the country, in returning home came by the way the girls had gone in the morning. It was while traversing this route they ran onto the body of Be. They notified some people, who later notified Deputy Coroner McNary of Canonsburg.

WILL MUSTER OUT SOLDIERS SUNDAY

Capt. Gibson of Federal Service Busy Now Arranging All Details

MEN TO BE GIVEN PART PAY

Next Sunday morning if plans are carried out Company A, Tenth Regiment will be mustered out of active service at Monongahela by Capt. E. H. Gibson. Sunday afternoon a public drill may be held on Bryant's field.

The mustering out will likely be an informal affair. The "mustering out" means simply that the men are excused to go to their homes in citizens' clothes and resume their customary occupations. However if there is need of men for military service, they will be the first called. At the end of three years they will be placed on the reserve list to remain there three years.

Under the new military laws the officers and men will receive 25 per cent of the regular army pay. They must report at least once a week for drill and these drills will last one and one-half hours. A strict record of the men and their work in each subject taken up during the drills will be kept.

Capt. Gibson has been busy inspecting the equipment of Company A, as well as all papers and records. The work is well under way. Everything has been found in first-class shape. He has commended the officers for the excellent manner in which they have kept the records as well as the United States property.

CHURCH VISITATION PLAN TO BE INAUGURATED BY CHURCH

In keeping with the fall campaign of church activities the Washington Avenue Presbyterian people are planning for a big day on Sunday, Oct. 29, when a general visitation plan is to be inaugurated. A committee composed of O. M. Wise, John F. Bowman, Dr. J. W. Manon, James Dawson, T. D. Williamson, H. A. Williams and John H. Clutter. has worked out a program which they feel will be beneficial to the church. Visitors are to start at 2:30 in the afternoon, two by two carrying the church greetings. It is planned to visit the homes of strangers, those in trouble and to find where the church can be of more benefit to the community.

Damage to Extent of $7,500 Done by Fallowfield Township Conflagration

MUCH GRAIN IS DESTROYED

Originating from an unknown source, fire at 7:30 o'clock Thursday evening destroyed the barn and contents at the Schwab farm occupied by Hiram Hannen, about three miles from here, causing a loss of close to $7,500, partly covered by insurance. Among the contents destroyed were 245 bushels of wheat, 180 bushels of oats, about 15 tons of hay and about 15 tons of straw. Some of the silo corn in the silo, near the barn was likewise destroyed. No machinery except a binder was lost.

Threshing had been done by Mr. Hannen and his helpers Tuesday and Wednesday and the straw, hay and grain placed in the barn. One theory was that a spark had fallen in the hay or straw and had gradually spread until it caused the fire. However this theory is discredited.

When the seriousness of the fire was discovered the Charleroi fire department was called from Charleroi, taking out the motor fire truck. Only the chemicals could be used however in confining the conflagration to the barn and the immediately adjacent buildings. Only the chicken coop of the smaller outhouses was saved. All the stock had been taken from the barn previously and none was lost.

The barn was a large and well-built one, owned by Mrs. Schwab. Its value according to present day reckoning would probably be $5,000 or more. The contents probably would run to $2,500

THIEVING PASSING?

If the station thieves which have been making a tour of western Pennsylvania towns, robbing safes and in passenger depots, are not identified by this time they are a hopeless lot. Their latest exploit at the Charleroi station, where the haul was the insufficient sum of 45 cents—most of it in pennies—should be the last straw.

In Fayette City some time ago the station was robbed and 15 cents taken from slot machines. A very small sum was secured at Webster, and at West Brownsville and California, the monetary gain for all the trouble of the daring thieves was measured by pennies. They hardly got enough to pay their fares to the next scene of operations.

The joke these station burglars have made of themselves is enough discouragment to thieving to last a lifetime. The pity of it is that not always are the conditions the same. Other robber bands, confining their operations to stores manage to skip off occasionally with money enough and property enough to reward their conscienceless selves for the danger taken.

Thieving has not gone out of style, but it would soon pass if even car fare was not forthcoming on half a dozen visititations. It is too dangerous and besides, a man could better afford to work than that.

WHAT OTHERS THINK

TO SOLVE THE MILK PROBLEM

The increased cost of milk would be a good thing for the country if it should lead people to keep goats. For some reason goat's milk has never been popular in America, although in Europe, especially in France. Italy and Switzerland, it is much esteemed, particularly for babies. A goat can be kept at small expense where it would be impossible to keep a cow. Garden waste and roadside browse will support it. A small shed affords sufficient shelter. A goat is far cleaner in its habits than a cow, and requires only such care as a child can give it. Let us get goats.—Youth's Companion.

"It's hard to believe anything could act like that in getting a corn off. Why, I just loved that corn right off with my finger nail. 'GETS-IT' is certainly wonderful." Yes, "GETS-IT" is the most wonderful corn-cure ever known because you don't have to fool and putter around with your corns, harness them up with bandages or try to dig them out. "GETS-IT" is a liquid. You put on a few drops and it dries. It's painless. Put your stocking on right over it. Put on your regular shoes. You won't limp or have a corn "twist" in your face. The corn, callus or wart, will loosen from your toe—off it comes. Glory hallelujah! 'GETS-IT' is the biggest selling corn remedy in the world. When you try it, you know why.

HAIR CUTS WILL NOW COST ALL OF 35 CENTS

Hair cuts in Canonsburg and Washington hereafter will cost 35 cents and there will be other "minor charges" in tonsorial prices. This announcement was made following a brief session of the Journeymen Barber's Union. Warning of the impending advance had been given several days ago. One of the chief reasons is that barbers in a majority of the bigger cities and towns of the country are receiving 35 cents. Another is the constantly increasing cost of living. It is said a movement is now in progress to increase the price of hair cutting in the Monongahela valley.

Against Unregistered Dogs.

Plans to draft a new dog license law designed for protection of sheep have been made by State officials, representatives of agriculture and other organizations, interested in the extension of sheep raising. It is stated that probably 30,000 unregistered dogs would be killed in the state this year, but if sheep raising is to be revived better protection was essential.

WIFE TOO ILL TO WORK

IN BED MOST OF TIME

Her Health Restored by Lydia E. Pinkham's Vegetable Compound.

Indianapolis, Indiana. — "My health was so poor and my constitution so run down that I could not work. I was thin, pale and weak, weighed but 109 pounds and was in bed most of the time. I began taking Lydia E. Pinkham's Vegetable Compound and five months later I weighed 133 pounds. I do all the housework and washing for eleven and I can truthfully say Lydia E. Pinkham's Vegetable Compound has been a godsend to me for I would have been in my grave today but for it. I would tell all women suffering as I was to try your valuable remedy."—Mrs. WM. GREEN, 332 S. Addison Street, Indianapolis, Indiana.

There is hardly a neighborhood in this country, wherein some woman has not found health by using this good old-fashioned root and herb remedy.

If there is anything about which you would like special advice, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

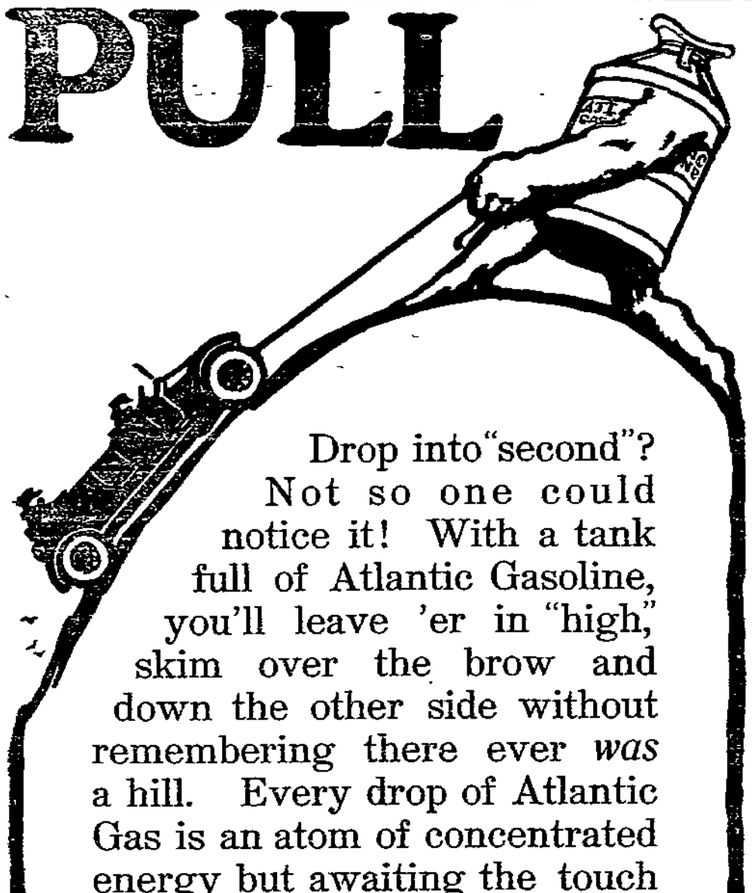
PULL



Drop into "second"? Not so one could notice it! With a tank full of Atlantic Gasoline, you'll leave 'er in "high," skim over the brow and down the other side without remembering there ever *was* a hill. Every drop of Atlantic Gas is an atom of concentrated energy but awaiting the touch of accelerator or throttle to release its tempestuous fury. Pull? Unanimously, "Yes." And every gallon's the *same!* Beware of mongrel fuels—insist on *Atlantic.*

COUGHED CONTINUALLY

Day and Night—Man Says Nothing Helped But Vinol

That statement does not surprise us. We have told the people of Charleroi many times during the last ten years that Vinol is the greatest remedy for chronic coughs and colds that we ever sold. Mr. Dunning says:—

"I took a heavy cold which settled into a chronic cough. It seemed as though I coughed continually day and night, so I could not sleep. I was all run-down and so weak I could hardly keep about. I tried different cough medicines but seemed to get worse instead of better. I went to the drug store and got a bottle of Vinol Before it was half gone I was better and its continued use cured my cough, built me up and I am feeling fine." Benj Dunning. 208 Tenth Ave., Scranton, Pa.

Vinol is not a paliative like cough syrups, but it is a constitutional remedy for coughs, colds and bronchitis, which removes the cause and stops the cough and the recovery oof Mr. Dunning was due to the beef and cod liver peptones, iron and manganese peptonates and glycerophospates which are contained in Vinol.
